Local Company Makes New Bid On Loan Assets

Offer of \$205,000 for Citizens
Property Made by Crawford
Finance Co

Affairs of the Citizens Building & Loan Co. moved a step nearer a close yesterday as C. D. Schaffner, receiver applied in common pleas court for permission to accept an offer of \$205,000 for the remaining assets of the institution. The bid was made by the Crawford Finance Co. of a list of assets valued at \$230,000.

Judge Hector S. Young has set the date for the hearing on the application for Jan. 4 in his journal entry. Judge Young said the offer appeared to the court to be the highest and let bid which the receiver has been able to obtain.

The highest previous bid was \$185,000 made at a public sale in October by the L. G. B. Co. of the collection of Toledo. Judge Young said the offer of the Crawford Finance Co. made in offer of \$185,000. Mr. Schaffner said today the present assets of the company are essentially the same as those on which the \$185,000 bid was made in October.

The present \$205,000 offer of the finance company is conditioned on Dec. 1 being fixed as the date from which the buyer is to receive all rentals on real estate.

Some exceptions. In his application Mr. Schaffner excepted 20 percent securities owned by the Citizens from the assets to be included in the sale. He also excepted all monies in the hands of the receiver other than principal or interest on loans on notes and mortgages since Oct. 10 when the public sale was held.

Since closing of the company in March 1931 liabilities have been reduced from \$1,000,000 until today there remains \$35,000 due to depositors and \$200,000 due to revolving stockholders.

Of the original deposits \$175,000 has been paid since 1931 in exchanging real estate holdings for deposits. The receiver has paid off \$279,000 of borrowed money and interest also. The depositors have received a 20 per cent dividend amounting to \$50,000.

At present there are about 2,000 depositors and 140 holders of revolving stock Mr. Schaffner said.

Should Judge Young approve the \$205,000 offer distribution of the money will be difficult in view of the uncertain status of the revolving stockholders, one of whom is petitioning the court here to be set up as a depositor. In addition the attorneys for the receiver, Carl Hart Warner & Carlhart have filed a blanket petition against the remaining stockholders asking the court to determine their status.

Under the state laws all depositors must be paid in full.

PEACE ERA DAWNING, ROOSEVELT DECLARES

President Lauds Pan American
Conference in Speech
at Montevideo

By The Associated Press
MONTevideo, Uruguay, Dec. 3.—President Roosevelt declared today a new era of friendship and confidence among the Americas was born at the Pan American conference here three years ago.

Addressing a luncheon given for him by President Gabriel Terra and senators Terra after an enthusiastic reception in Montevideo, the president declared that the United States events a declared belief that when history comes to the origin of the new American era will be placed here in the memorable year 1933.

Today it is an inspiration for the average citizen of all our republics that that conference is giving back its fruits in terms of a new era for the people of the world.

During the past week Mr. Roosevelt said I have become certain of this because I have seen in the faces of the men, women and children in Rio de Janeiro, Buenos Aires and today in Montevideo a joyful expression of hope and faith which can and will inspire us to greater activities in the common cause.

He expressed hope that President Terra and his wife would visit him and Mrs. Roosevelt in Washington. He had extended a similar invitation to President Agustin P. Justo of Argentina and Mrs. Justo during his visit in Buenos Aires for the opening

Hitler's Pact with Japan Which Il Duce Approves Gives Europe the Jitters

Potential Menace to Peace Started With Fascist
Powers Backing Franco in Spain Followed by Luring
of Southeastern Europeans Into Accord.

These great war machines are used for war in the following article, the first of two a noted foreign correspondent who has made intimate studies at first hand of war in leading to war and of war itself, tells why Germany and Japan would fight Russia a prospect that has caused considerable international perturbation.

By DWIGHT MACKENZIE
(Associated Press Writer)
NEW YORK, Dec. 3.—Not long ago Hitler has given uneasy Europe another nervous headache through the conclusion of the German-Japanese anti-Communist alliance—with Mussolini's apparent blessings—which Russia vigorously proclaims is leading straight for a dual attack on the Soviet union.

Moscow officials are not alone in seeing strong war possibilities in this move. European diplomats and professional observers know for months despite denial by the parties concerned that this pact was in the making.

Obviously it is a potential menace to peace as even quiet spoken and middle of the road Britain has indicated through the voice of Foreign Secretary Anthony Eden.

Hitler Il Duce Combine
The preliminaries to this agreement were of equal portent. Hitler and Mussolini buried the hatchet and decided to work together on many major issues.

The new brotherhood combined to operate immediately—each with a keen eye on the other.

One of their first moves was to combine in backing the latest in surreptitious Spain against the Russian supported radical government of Madrid. There is dynamite in this.

At the same time between them they gathered into their camp a sizable bloc of south eastern European nations which whatever else impelled them to join the Hitler-Mussolini love feast were all anti-Communist.

They Hostile Intent
The members of this powerful bloc say that they have no hostile intentions. They are anti-Communist but that doesn't mean that they are anti-Russian enough to start a war. They want to prevent the spread of communism in their own countries.

Moscow's answer to this has been a persistent "bunk" in about that language.

With all this, Germany, Russia and Japan have continued to devote their energies to making until they have constructed three of the most powerful war machines the world has known.

Within a few days officials in both Moscow and Berlin have been advertising the great strength of

CHRISTMAS LIGHTS TURNED ON TONIGHT

Marion will be all lit up like a Christmas tree tonight when more than 500 colored bulbs strung across Main and Center streets are turned on for the first time. Santa Claus posters have been placed on lamp posts and evergreen trees are expected to be placed later today.

Decorations have been installed on many of the store fronts already in preparation for the Yule season. The street decorations will extend on Center street from High to Orchard street, and on Main street from Mill street to the Baptist church. Workmen have been busy at the task since Monday evening.

NEW STEEL PLANT SHIPS FIRST ORDER

Shipment of 5,000 Marion-made steering wheels was announced yesterday by Harold F. Hadley, vice president of the Defiance Pressed Steel Co. The shipment was the first produced in the company's new factory building, formerly the plant of the Power Mfg. Co.

Company officials also announced the letting of a contract for electric wiring of the new office building, now under construction, to the United Electric & Supply Co. for approximately \$200. The same contract also is covering the power wiring for the factory building, a program of work that will cost between \$200 and \$300.

Laborite Says Abdication Must Be
Avoided To Keep Empire United;
Believes People Favor King.

By The Associated Press
LONDON, Dec. 3.—King Edward has made up his mind to keep both his throne and his friendship for Mrs. Wallis Simpson, one of the highest sources in the kingdom told the Associated Press today. The king was in his first clash with the government.

Prime Minister Stanley Baldwin in an unprecedented house of commons sitting stood white and stubborn to say: "I have no statement to make on a constitutional crisis."

Then dramatically the Laborite colonel Right Hon. Josiah Clement Wedgwood, told the British press association in apparent confirmation of the authoritative impression that the king was winning at least the first phase of his empire-stunning battle.

The king is believed to have said: "The thing we have got to get more than anything else is abdication. Any change will tear this country in two. If a general election comes, the outcome will be on the side of the king."

His words reflect those of the Liberal Attorney General, who said: "Why should the king be deposed? The crown is a part of the nation."

With his belief in the king, Baldwin is not alone. He is joined by the Archbishop of Canterbury, the Bishop of Bradford, and the Bishop of Exeter, who reminded the king of his duties to the kingdom.

Although avoiding direct criticism of King Edward VIII in connection with his friendship for Mrs. Simpson, Church of England leaders are known to be united in disapproval of the situation.

New Stamp Series To Honor
American Military Heroes

By Wallace Meredith

WASHINGTON, D. C.—Within the next three weeks a new series of stamps will be issued which should delight the hearts of the thousands of collectors throughout the world.

While various countries on numerous occasions have honored their military heroes, this is the first time that an entire issue has been devoted to recognition of the outstanding army and navy leaders of a nation.

Much discussion preceded final selection of those who were to comprise the gallery of notable military figures. The series of ten stamps, each depicting a different hero, was finally approved by the president's formal approval which was necessarily postponed until after election.

Collectors Await Issue

Five of the 10 stamps are apportioned to the army and the other five to the navy. They are in denominations of one, two, three, four, five and ten cents and are expected to be much in demand. This is the second series issued under the

regime of Postmaster General James A. Farley who has been partial to commemorative issues of various sorts. Last year philatelic collectors were indulged by a special series of 10 stamps publicizing various units of the national park system.

Two Revolutionary war heroes devoted the one-cent stamp of George Washington and Nathaniel Green. The stamp of similar denomination allotted to the navy carries the portrait of John Paul Jones and John Barry, two of the navy's most distinguished early leaders.

Two Presidents Honored

Andrew Jackson, president and hero of the battle of New Orleans, and Winfield Scott, commander of the United States forces during the Mexican war, are those whose portraits appear on the army's two-cent stamp. U. S. Grant, Union commander-in-chief during the Civil war and William T. Sherman, one of his ablest generals, were selected for the three-cent stamp. The Civil War leaders, Robert E. Lee and Stonewall Jackson, are added to the gallery on the four-cent stamp.

Stephen Decatur and Thomas MacDonough represent the navy on a two-cent stamp. David Farragut and David G. Porter grace the three-cent denomination and three admirals, Deke Sloat, John S. Mahan and William B. Shufeldt, are pictured on the four-cent stamp.

The five-cent stamp in each is

devoted to West Point and Annapolis, the two branches of the military service.

Bronchial Asthma

There's nothing better for more effective relief than BUCKLEY'S MISTWEL. Two or three doses in a roomful of water will soothe the inflamed lining of the throat, loosen the phlegm, and give you a better night's sleep.

If the 15 grains of Buckley's Mistwels are taken three times a day, you will find that the coughing and wheezing will stop, and you will be able to sleep peacefully.

Buckley's Mistwels are made from the finest ingredients and are guaranteed to give you relief from all the symptoms of bronchial asthma.

HAPPY RELIEF
FROM PAINFUL
BACKACHE

Caused by Tired Kidneys

Many of those suffering from painful backache have been told that it is due to a strain of the muscles or to a bad posture. But the real cause is often a tired kidney.

The kidneys are the filters of the body, and when they become tired, they are unable to filter out the waste products of the body. This causes a buildup of toxins in the blood, which can lead to a variety of ailments, including backache.

There is a simple way to relieve the pain of a tired kidney. It is to take a course of treatment with a kidney tonic. This will help to strengthen the kidneys and filter out the toxins from the blood.

YOU'RE PRETTY GOOD WHEN THEY LOCATE Terminals NEXT TO YOU

Soon after Hotel Cleveland was opened, the railroads entering Cleveland built the Union Passenger Terminal, and joined it to our lobby with a covered passageway.

Of course we said we appreciated it, but the railroads came right back and they appreciated having the hotel so convenient for their passengers. Which makes it a place for everybody including the passengers. Especially the passengers.

Next time you come to Cleveland, remember how thoughtful the railroads were of your convenience. Remember that you can reach our lobby without going out of doors. And when you're here, you are in Cleveland's most comfortable and colorful hotel, with everything you'll want to see in Cleveland in our very threshold.

Rooms from \$2.50 for one, \$4 for two.

6,000 IDLE AS STRIKE
CLOSES AKRON PLANT

New Wage Rate and Work
System Causes Dispute
at Tire Concern

By The Associated Press

Strikes in industry supplying
units for automobile production
extended today to the Goodyear
Tire & Rubber Co. at Akron where
a plant employing 6,000 workers
was closed.

Some 400 workers in plant No.
1—one of two Akron factories, each
employing 6,000—started a sit-
down strike last night. One of
them, more than 20 this year,
workers turned back employees on
the night shift at the gates. The
sit-downers left the plant early
today.

Company officials said they were
informed the strike was in protest
against a new wage rate and work
system in the truck tire department.
Approximately 300 workers en-
gaged in plant glass production at
Cleveland and Ford City, Pa.,
Clarkburg, W. Va., Mt. Vernon,
O., and 1,900 employed in the Mid-
land Steel Products Co. at Detroit
maker of automobile frames re-
mained idle.

WASHINGTON, Dec. 3.—Senate
investigators reported today that
John D. Rockefeller Jr. gave
\$70,000 to Republican campaign
funds while Democratic organiza-
tions received \$50,000 from Mrs.
James P. H. Cromwell, formerly
Doris Duke, the tobacco heiress.

Their contributions were included
in a list of large donations com-
piled by the special senate com-
mittee investigating spending in the
recent campaign.

The list made public today
showed gifts totaling \$50,000 from
Alfred P. Sloan Jr. of New York,
president of General Motors Co. to
15 anti-new deal agencies.

Total contributions of the Rocke-
feller family were \$100,000 the com-
mittee announced.

Surgeons

It was not long ago that the very word operation created alarm and a great deal of anxiety in the minds of laymen. Today, I am glad to say the public is not so afraid of operative procedure. But there are still many persons who dread the knife. Because of this they avoid what is really necessary surgery. They fail to realize that the danger of neglect is far greater than that of the operation.

To me, tell you a few things about the development of surgery. The beginning of surgery actually goes back to the days of the ancient Egyptians and Romans. This has been confirmed by the finding of 60 or 200 surgical instruments in the ruins of Pompeii. Recently in the museums of Naples and Caico I saw many of them. Undoubtedly these instruments were perfected as a result of war and the need of saving the lives of valiant warriors. Little by little, however, surgery advanced during the Middle Ages. In fact it was forbidden to shed blood by operative procedure so to die of the body. But shortly after the recovery of America medicine surgery had begun. The birth of Ambrosio Pare was a memoir

ble event. He became the father of modern surgery. Semmelweis described four kinds of plague he made of surgery a dignified profession.

Parr used the ligature for 1, he cut blood vessels and denounced the practice of cauterizing wounds with red iron. He experimented with no other than two ways to stop bleeding. In their place he used bloodless cautery.

Parr was the first to recognize that with the patient himself were the means of recovery. Before that a man got well in spite of the treatment given him. It is remembered by the sentence said: I did not find God healed him.

Following Parr came other great

Today surgeons are trained over a period of years. Invention and discovery in the arts and sciences promote the practice of surgery. Thanks to these advances an operation can be performed with the minimum of risk to the patient. Unnecessary pain and discomfort for the patient no longer is inflicted upon the victim.

Leaving in this age it is unwise for an one to deny himself the benefits of modern surgery if an operation has been advised do not

decisions. I learned of this in about 1978, in December, that the court had affirmed the procedure more completely and in favor of the doctor. Of course, a few courts have taken the differing between the two and decided in favor of the doctor.

If there is any doubt in your mind as to the accuracy of the 332, need an update. The doctor need not be a doctor. It may be a nurse, a pharmacist, or a physician's assistant. The patient is no longer a patient. The doctor has become a provider of care and a provider.

DEPENDABILITY and soft pedal action—that's what you get in Ford V-8 brakes for 1937! Scientific study of every type of braking produced these new Ford Easy-Action Safety Brakes. They are positive and direct, with "the safety of steel from pedal to wheel." These brakes are self-energizing. The forward motion of the car is used to help apply the brakes. You use about one-third less brake pedal pressure. Your Ford dealer will be glad to show you this beautiful, roomy car. Ask him about the two engine sizes. Then drive this modern car and you will know why it has the best type brakes available.

CHOICE OF TWO V-8 CYLINDER ENGINE SIZES—85 horsepower for maximum performance, 60 horsepower for maximum economy.

NEW LOW PRICES—NEW OPERATING ECONOMY—The lowest priced Ford in years. The 60-horsepower engine gives 20% more gasoline mileage.

MODERN APPEARANCE—Completely new streamline design from grille to tail light.

NEW EASY-ACTION SAFETY BRAKES—Quicker straight line stops with about one third less brake pedal pressure.

NEW COMFORT AND QUIET—Smoother and quieter Center Post Ride. Easier steering.

ALL-STEEL BODIES—Not an ounce of wood in all steel body structure. Steel top, floor and panels. Safety Glass throughout at no extra charge.

NEW "FINE CAR" APPOINTMENTS—Luxurious new interiors—convenient self-starter button and parking brake on instrument panel.
